

## Rosoboronexport – the general sponsor of the Third International Forum Engineering Technologies 2014

Rosoboronexport, part of the Rostec State Corporation, became the general sponsor of the Third International Forum “Engineering Technologies 2014”, which will include the Oboronexpo 2014 international Exhibition. The events will be held from 13 to 17 August 2014 on the territory of the Rossiya transport and exhibition complex in Zhukovsky (Moscow region).

“Rosoboronexport is the general sponsor of many Russian exhibitions, - said Rosoboronexport’s Deputy Director General Igor Sevastyanov heading the company’s delegation at the forum. - For us, it is crucially important. After all, it is here at home that we and domestic manufacturers of military products have the opportunity to show our foreign partners a wide range of Russian military equipment. Demonstration of weapon models not only on display stands, but also in action at a specially prepared test range – that is what foreign military experts want to see.”

Rosoboronexport’s display will showcase modern Russian armored vehicles, missile and artillery systems, close assault weapons and ammunition, key air defense assets, different training systems, as well as some models of helicopters and unmanned aerial vehicles.

Rosoboronexport’s delegation expects increased interest among participants and guests of the forum in the key exhibits: various variants of the T-90 main battle tank, BMP-3 infantry fighting vehicle, a lightweight version of the Smerch multiple rocket launcher system, upgraded 155mm Msta-S self-propelled howitzer, Kornet-EM anti-tank missile system, Khrizantema-S self-propelled anti-tank missile system, Pantsyr-S1, Tor-M2E and Buk-M2E air defense missile systems, Ka-52, Mi-28NE and Mi-35M attack helicopters, as well as Mi-17-type military transport helicopters.

Talks with Rosoboronexport’s foreign partners, the world’s leading arms manufacturers, with which Russia is implementing mutually beneficial projects for both the Russian Armed Forces and law enforcement agencies of third countries, have been scheduled to be held during the forum and exhibition.

JSC Rosoboronexport, part of the Rostec State Corporation, is Russia’s sole state intermediary agency responsible for import/export of the full range of defense and dual-use products, technologies and services. The company ranks among the leaders in the global arms market. It accounts for over 80% of Russian arms exports. Rosoboronexport cooperates with more than 700 enterprises and organizations of Russia’s defense industrial complex. It maintains military-technical cooperation between Russia and more than 70 countries.

Rostec State Corporation is the Russian corporation established in 2007 to promote the development, production and export of high-technology industrial civil and military goods. It comprises 663 enterprises which currently form 9 holdings in the defense industrial complex and 5 holdings in civil industries. Rostec’s enterprises are located in 60 regions of Russia and
