

Ka-226T

Mission and primary tasks

The Ka-226T day/night light multipurpose helicopter is designed to conduct aerial reconnaissance and targeting, patrol, drop small reconnaissance and sabotage groups, transport cargo and passengers, and evacuate the wounded.

The baseline helicopter can accommodate a variety of modules with special equipment.

The helicopter can be converted into one of the following versions: patrol; search & rescue; medical; transport/freight; passenger; corporate.

Airborne equipment

The Ka-226T's airborne equipment provides safe flight control both along air routes and in off-the-airway regulated and unregulated airspace, day and night, and in adverse weather conditions. Lighting equipment of the Ka-226T's cockpit enables the pilot to fly the helicopter at night, including using night vision goggles. The effectiveness of patrol and search missions at night can be enhanced by using TV/thermal imaging equipment. The helicopter can carry various types of special and optional equipment.

Main advantages

- operability in any geographical and climatic conditions, day and night, and in adverse weather conditions;
- versatility (module replacement takes two hours);
- compactness that enables landings on unprepared small-sized sites;
- high hovering accuracy, including during rescue operations;
- high hovering ceiling;
- · excellent maneuverability and handling;
- easy operation and low maintenance;
- · maximum safety and single-engine flight and landing capability.

Características básicas:

- Max takeoff and landing weight, kg: 3600
- Max internal payload, kg: 1000
- Max external payload, kg: 1300
- Max rate of climb at sea level, m/s: 9
- Cruising speed, km/h: 209
- Range, sea level, ISA (+15 °C), full main fuel tanks and 20 min fuel reserve, km: 430

• Hovering ceiling with flight weight of 2,800 kg, ISA (+20 °C), m: 6000

• Rotor diameter, m: 13

Fuselage length, m: 8,580
Helicopter width, m: 3,225
Helicopter height, m: 4,185

Crew: 1-2 Powerplant:

• type: Arrius 2G1

• number × takeoff power, hp : 2×500

услуг и технологий военного и двойного назначения. Входит в Госкорпорацию Ростех. «Рособоронэкспорт» образован 4 ноября 2000 года и является одним из лидеров мирового рынка вооружений. На долю компании приходится более 85% экспорта российских вооружения и военной техники. «Рособоронэкспорт» взаимодействует с более чем 700 предприятиями и организациями оборонно-промышленного комплекса России. География военно-технического сотрудничества России – более 70 стран.
