

Características básicas:

- Displacement, full load, t: 1450
- Basic dimensions, m: 80x11,4x3,25
- Main propulsion plant: two-shaft diesel
- Total MPP capacity, kW: 2060
- Electric power sources: 6 diesel-generators
- Total electric capacity, kW: 900
- Number of propellers: 2
- Speed, knots:
 - maximum: 14
 - economical: 10
- Economical cruising speed range with max fuel capacity, n. m.: 2500
- Endurance, days: 15
- Complement: 61
