

Rosoboronexport to discuss the status of arms exports with the business community at SPIEF 2019

Rosoboronexport (part of the Rostec State Corporation) will discuss the current status and prospects for arms exports during the St. Petersburg International Economic Forum (SPIEF) 2019, which will be held from 6 to 8 June in the Expoforum Convention and Exhibition Centre.

“Rosoboronexport’s financial indicators suggest that our chosen development strategy is the right one: we have delivered \$5.7 billion worth of products to foreign customers since the beginning of the year. As one of the world’s leading arms exporters, we are not only tracking and following global trends, but also introducing new areas of work that are unique for the market, including financial mechanisms for foreign trade activities. The St. Petersburg Forum is an ideal platform for us to present our competencies to opinion leaders of the Russian and world economies. These days we are going to discuss with them the current ongoing efforts and business development in new economic realities,” said Rosoboronexport’s Director General Alexander Mikheev.

The St. Petersburg International Economic Forum has been held since 1997. Over this time, it has become the leading global platform for communication between business representatives and discussion of key economic issues facing Russia, emerging markets and the world as a whole.

At SPIEF 2019, Rosoboronexport’s top management will hold meetings with leading Russian state financial organizations and business entities, as well as with representatives of the Company’s partner countries in military-technical cooperation. It is intended to discuss the growth prospects for Russian arms exports, the strategic development of its financial mechanisms, and state support measures for manufacturers and military-technical cooperation (MTC) actors.

The Company is planning to focus on seeking new horizons and discussing specific prospects for cooperation with countries in Asia, Africa, the Middle East and Latin America, and expanding cooperation in the SCO region. The adaptation of the MTC actors and defense industry enterprises to new challenges of our time and sanctions pressure will certainly be a key issue.

“For five years, Russia and Rosoboronexport have been facing serious restrictions from a number of international financial institutions, which turned out to be heavily dependent on the political will of some players on the world arms market. We can only perceive them as unfair competition and attempts to put pressure on us and our partners,” added Alexander Mikheev.

Rosoboronexport is the only state-owned arms trade company in the Russian Federation authorized to export the full range of military and dual-purpose products, technologies and services. It is a subsidiary of the Rostec Corporation. Founded on 4 November, 2000, now Rosoboronexport is one of the leading world arms exporters to

the international market. Its share in Russia's military exports exceeds 85 percent. Rosoboronexport cooperates with more than 700 enterprises and organizations in the Russian defence industrial complex. Russia maintains military technical cooperation with more than 100 countries around the world.

State Corporation Rostec is one of the largest industrial groups in Russia. It comprises over 700 scientific and production entities in 60 regions of the country. Rostec's key business areas include transport machine building, electronics, medical technologies, chemistry and innovative materials. Rostec's holding companies form three clusters: the Radioelectronics cluster, the Weapons cluster and the Aviation cluster. Rostec's portfolio includes famous brands such as AVTOVAZ, KAMAZ, Concern Kalashnikov, "Russian Helicopters", Uralvagonzavod, etc. Rostec takes an active part in implementation of all 12 National Projects. The company is a key supplier of Smart City technologies, carries out digitization of the government, industry, social sector, and prepares plans for developing 5G wireless technologies, the industrial Internet of Things, big data and blockchain systems. Rostec is a partner of the world's leading manufacturers such as Boeing, Airbus, Daimler, Pirelli, Renault, etc. The corporation supplies its products to more than 100 countries. Export of high-tech products provides for almost a third of the company's revenue.
