

Rosoboronexport to present latest anti-drone systems in Ufa

Rosoboronexport (part of the Rostec State Corporation) is taking part in the 10th International Meeting of High Representatives for Security Issues (18 – 20 June 2019, Ufa), organized by the Security Council of the Russian Federation.

The forum is attended by delegations from more than 120 countries. Many delegations are headed by secretaries of national security councils, heads of law enforcement agencies, and national security advisers. Rosoboronexport's representatives participate in meetings with them as part of Russian delegations headed by Russian Security Council Secretary Nikolai Patrushev and his deputies, as well as in a bilateral format.

“Rosoboronexport offers foreign customers also a wide range of means of providing security at various levels – from equipping separate anti-terrorist units to building a Safe and Smart City infrastructure, protecting critical facilities and state borders. We are actively cooperating with various law enforcement agencies of partner countries in the supply of military and service weapons, close combat weapons, including those with a range of non-lethal ammunition, explosive detection equipment, facial recognition systems and fingerprint identifiers. In Ufa, we will be showing anti-drone systems – new additions to our catalog,” said Director General of Rosoboronexport Alexander Mikheev.

At the forum, Rosoboronexport will arrange an exhibit display where about 20 Russian enterprises will showcase their products. Scale models of the recognized bestselling products for law enforcement agencies such as the [Ka-226](#) day/night light utility helicopter, as well as [Tiger](#) and [Typhoon](#) special motor vehicles for rapid transportation of troops, including special forces and anti-terrorist units, are displayed at the company's stand.

Among exhibits provided by enterprises, the Stupor portable anti-drone jammer and the Yenot radar system for detection and tracking of ground, surface and air targets, the Kerber-T detector for explosives and dangerous chemical agents, Kalashnikov assault rifles of the latest [AK203](#), AK-12 and AK-15 series, as well as the full-scale Storm special water cannon vehicle are expected to be of particular interest to foreign customers.

The Government of Moscow will be showcasing on its stand integrated IT solutions for Safe City and Smart City technologies, being promoted by Rosoboronexport abroad. In particular, foreign delegations will be able to get acquainted with traffic control, facial recognition, video surveillance and video analysis systems. These systems proved reliable and effective during the 2018 FIFA World Cup in Russia, where security was highly appreciated by the leadership of international sports organizations and guests of the World Cup.

Rosoboronexport is the only state-owned arms trade company in the Russian Federation authorized to export the full range of military and dual-purpose products, technologies and services. It is a subsidiary of the Rostec Corporation. Founded on 4 November, 2000, now Rosoboronexport is one of the leading world arms exporters to

the international market. Its share in Russia's military exports exceeds 85 percent. Rosoboronexport cooperates with more than 700 enterprises and organizations in the Russian defence industrial complex. Russia maintains military technical cooperation with more than 100 countries around the world.

State Corporation Rostec is one of the largest industrial groups in Russia. It comprises over 700 scientific and production entities in 60 regions of the country. Rostec's key business areas include transport machine building, electronics, medical technologies, chemistry and innovative materials. Rostec's holding companies form three clusters: the Radioelectronics cluster, the Weapons cluster and the Aviation cluster. Rostec's portfolio includes famous brands such as AVTOVAZ, KAMAZ, Concern Kalashnikov, "Russian Helicopters", Uralvagonzavod, etc. Rostec takes an active part in implementation of all 12 National Projects. The company is a key supplier of Smart City technologies, carries out digitization of the government, industry, social sector, and prepares plans for developing 5G wireless technologies, the industrial Internet of Things, big data and blockchain systems. Rostec is a partner of the world's leading manufacturers such as Boeing, Airbus, Daimler, Pirelli, Renault, etc. The corporation supplies its products to more than 100 countries. Export of high-tech products provides for almost a third of the company's revenue.
