

Rosoboronexport presents advanced Air Force and Air Defense equipment at Dubai Airshow 2019

Rosoboronexport JSC (part of Rostec State Corporation) presents the latest Russian-made Air Force, Air Defense and electronic warfare equipment at Dubai Airshow 2019, which will be held from November 17 to 21 in Dubai, United Arab Emirates.

“The Middle East is a key region for Rostec. Traditionally, the demand for Russian-made military equipment is strong here and interest in high-tech civilian and dual-use products has markedly increased in recent years. At Dubai Airshow 2019, Rostec holdings, in addition to new aircraft and helicopters, will showcase the latest Russian systems for countering drones and other air attack weapons. In particular, along with well-known ‘hard-kill’ air defense systems, we offer ‘soft-kill’ electronic warfare equipment mounted on various platforms, including the high- mobility systems Sapsan-Bekas, Kupol-PRO and Pishchal-PRO. These systems can be successfully used to protect military and industrial facilities, civilian infrastructure against drone attacks,” said Rostec General Director Sergey Chemezov.

The Dubai Airshow has a long history. It has been held since 1986 and today is rightly considered one of the most representative international aerospace exhibitions. The exhibition has held steady among the world’s largest aerospace events along with MAKS (Russia), Paris Air Show (France), Farnborough International (United Kingdom) and Air Show China (China).

“Rosoboronexport has taken part in all Dubai Airshows in its history. It is pleasant to note that the scale of the exhibition is steadily increasing and interest in our products is growing in parallel. We’re doing our best to justify increased attention by partners and surprise them with unique Russian defense developments,” said Rosoboronexport Director General Alexander Mikheev. “This year is no exception: we’ll showcase here the latest Su-57E fifth-generation fighter, [Mi-28NE](#) and [Mi-171SH](#) helicopters modernized drawing on lessons learned in fighting, as well as unique air defense weapons, including the upgraded Pantsir-S1M SPAAGM system. Space-related topics, too, has not been ignored: we are presenting a new Sula radar here to monitor space objects.”

At Dubai Airshow 2019, Rosoboronexport is the organizer of Russia’s single display with a total area of more than 750 square meters. In addition to Rostec and Rosoboronexport stands, eight leading Russian holding companies producing Air Force, Air Defense and electronic warfare equipment will showcase their products, including United Aircraft Corporation (UAC), Russian Helicopters, United Engine Corporation (UEC), NPO High-Precision Systems, Almaz-Antey Concern, Shwabe and others.

Foreign delegations are expected to take a keen interest both in new products having significant export potential and in the Russian bestsellers in the world market: the legendary [S-400](#) long-range air defense missile systems, [Buk-M2E](#) and Viking SAM systems, [Ka-52](#), Ka-29, [Mi-35M](#), Mi-26, Mi-38 and [Ansat](#) helicopters, [Su-35](#), [MiG-35](#), [Su-32](#) aircraft, as well as battle-proven air-launched precision-guided munitions. Irkut Corporation brought to the

exhibition a full-scale model of the Yak-130 combat trainer.

The products offered to visitors of the exhibition by Rosoboronexport will be presented in the form of a multimedia catalog. Interactive touchscreens will allow visitors to the company's stand to get a detailed description of weapons and military equipment, their performances, see photos of full-scale hardware, as well as videos on their use in real combat conditions.

On November 18, at Dubai Airshow 2019, Rosoboronexport will hold a public presentation "Russian systems for countering unmanned aerial vehicles."

"We expect great interest in Russian counter-drone developments. Unfortunately, the Middle East was one of the first regions in the world to learn about the reality of the threat posed by small and ultra-small drones that fell into the hands of terrorists. Today Rosoboronexport presents a wide range of assets capable of protecting any facilities and territories against this new threat," added Alexander Mikheev.

Rosoboronexport has closely followed the trends in the world arms market, including in the Middle East, a vital region of the world for Russia. At Dubai Airshow 2019, along with a demonstration of the best Russian weapons, the Company will tell its partners about the whole variety of forms of mutually beneficial cooperation, our unique offers in the field of technology transfer, infrastructure projects, including in the space sector.

Rosoboronexport is the only state-owned arms trade company in the Russian Federation authorized to export the full range of military and dual-purpose products, technologies and services. It is a subsidiary of the Rostec Corporation. Founded on 4 November, 2000, now Rosoboronexport is one of the leading world arms exporters to the international market. Its share in Russia's military exports exceeds 85 percent. Rosoboronexport cooperates with more than 700 enterprises and organizations in the Russian defence industrial complex. Russia maintains military technical cooperation with more than 100 countries around the world.

State Corporation Rostec is one of the largest industrial groups in Russia. It comprises over 800 scientific and production entities in 60 regions of the country. Rostec's key business areas include transport machine building, electronics, medical technologies, chemistry and innovative materials. Rostec's holding companies form three clusters: the Radioelectronics cluster, the Weapons cluster and the Aviation cluster. Rostec's portfolio includes famous brands such as AVTOVAZ, KAMAZ, Concern Kalashnikov, "Russian Helicopters", Uralvagonzavod, etc. Rostec takes an active part in implementation of all 12 National Projects. The company is a key supplier of Smart City technologies, carries out digitization of the government, industry, social sector, and prepares plans for developing 5G wireless technologies, the industrial Internet of Things, big data and blockchain systems. Rostec is a partner of the world's leading manufacturers such as Boeing, Airbus, Daimler, Pirelli, Renault, etc. The corporation supplies its products to more than 100 countries. Export of high-tech products provides for almost a third of the company's revenue.
