

BK-16E

Rapid power

Hi-tech, high-speed, multifunctional boat with low displacement

- ▶ High-speed, substantial range, perfect maneuverability;
- ▶ Spacious, armored and comfortable troops compartment;
- ▶ There is a bow ramp with a bow-to-stern through passage;
- ▶ Substantial fire power;
- ▶ Ergonomic pilot house;
- ▶ Can be both installed aboard the ship or vessel and transported by railway, road, marine or air transport.

BK-16 is designed to provide support to Special Forces in littoral areas.

The boat can be easily transformed to a command and control boat, a fire support boat, an anti-sabotage boat, a police boat, a boat for SAR operations, an ambulance boat or a fireboat.

Suspension boat seats with armored seatbacks are available for troops.

The boat can be equipped in various combinations with 12,7 mm and 7,62 mm machine guns, remotely controlled combat machinegun and grenade launcher stations.

Outstanding specifications, balanced configuration, ergonomic design of BK-16 provide for possibility to carry out various tasks in littoral areas and inland waters.

Main characteristics:

- Full displacement, t : 26,6
- Main dimensions (length, beam, draft), m: 18,0x3,8x0,9
- Maximum speed, kts. : 45
- Troops capacity, men : 19
- Range, miles : 400
