

AGS-17

AGS - A Great Striker

The 30mm AGS-17 Automatic Grenade Launcher is a reliable weapon with great destruction capabilities and reasonable weight.

The 30mm AGS-17 Automatic Grenade Launcher (AGL) has glorious battle history. The platform is extremely reliable but can also be easily maintained and fixed in the field, which is very important for regular troops. It's a perfect Automatic Grenade Launcher for offensive and defensive operations. The great destruction power combined with wide selection of 30mm grenade types considerably augment firepower and combat capabilities of any unit.

AGS-17 has been tested all over the world under harshest weather conditions. It has been the weapon of choice for the Russian and Soviet Armed Forces since 1971, which proves its reliability, efficiency and durability.

Main characteristics:

- Caliber: 30mm
- Rate of Fire: 420 rds/min
- Weight with a mount and sight: 31 kg
- Empty weight: 18 kg
- Sighting range: 1700 m
