

OKAPI-S

Reliable Detection in Any Weather

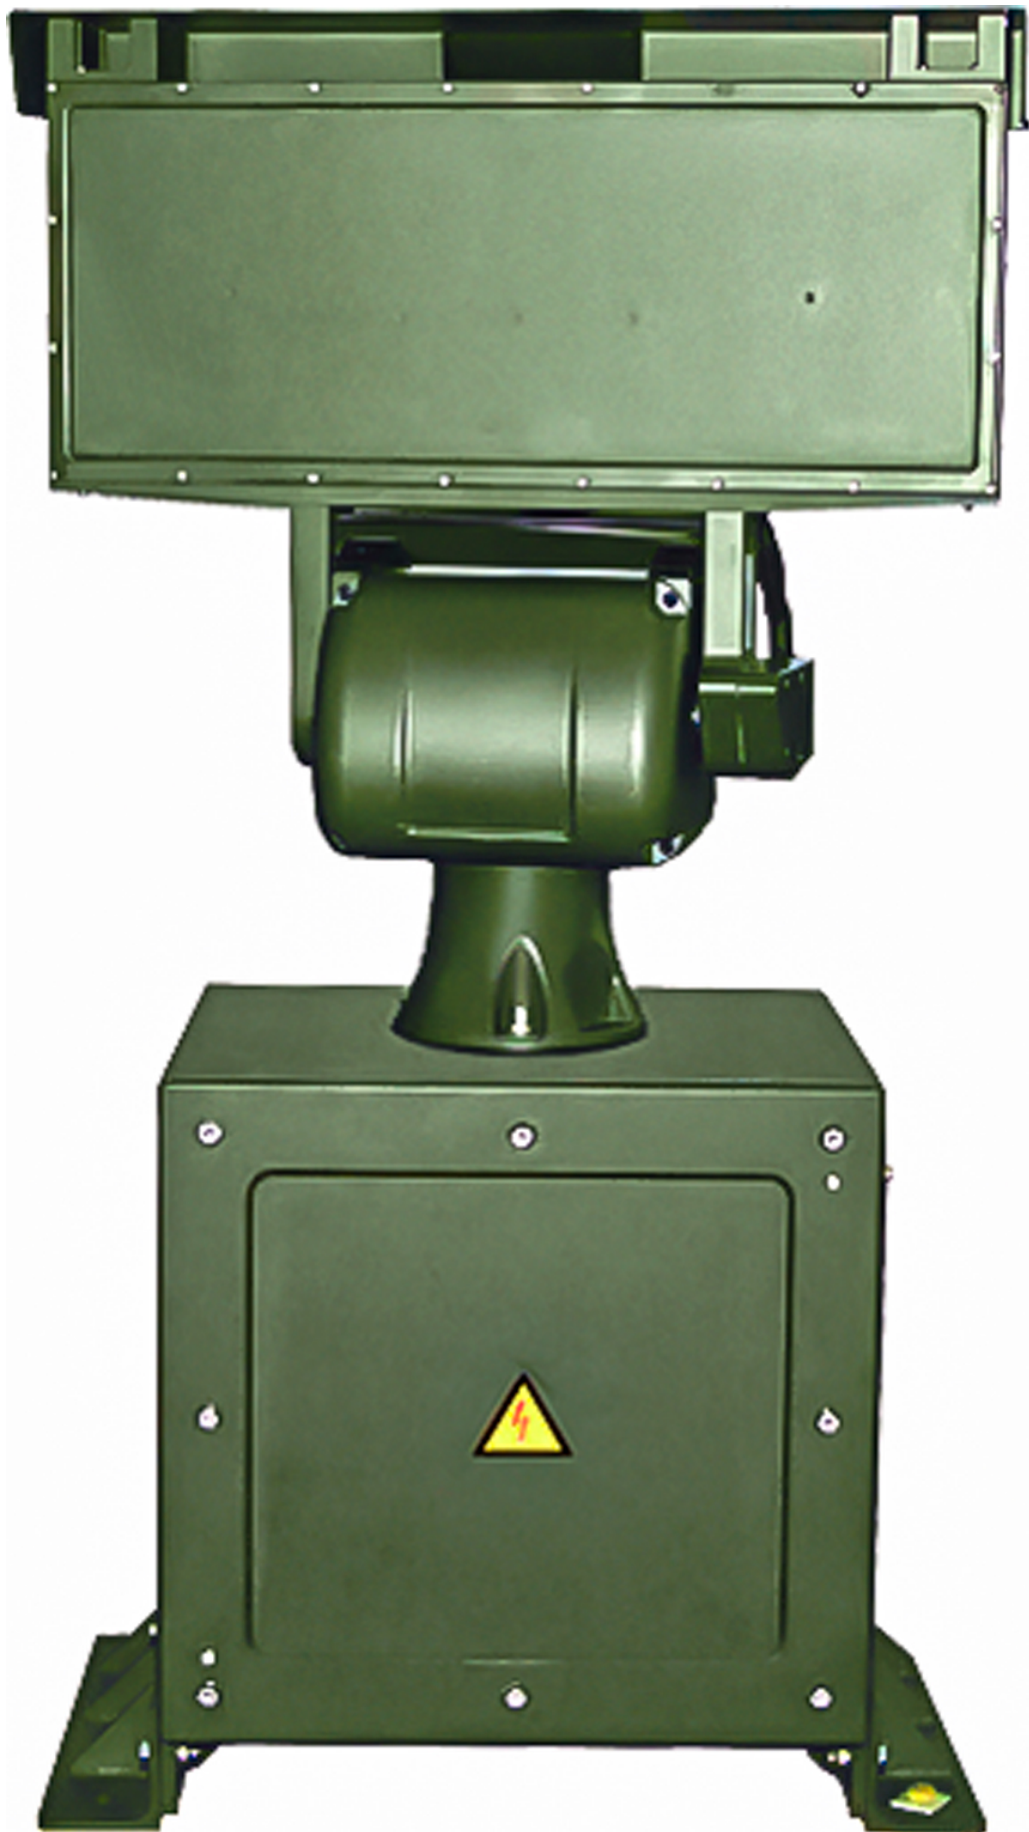

Radar Detecting Fixed and Moving Targets within 15 km.

- ▶ Target detection at 15 km away;
- ▶ Reliable operation in any weather;
- ▶ Adjustable zones of high importance.

OKAPI-S reliably detects and identifies various fixed and moving targets both on land and over the water within a range of 15km in harsh weather conditions with zero visibility conditions (precipitation, mist, etc.).

Main characteristics:

- Range of detection and automatic tracking of ground moving targets, with probability of minimum 0.8, at least, km:
 - Human : 5
 - Passenger vehicle : 8
 - Truck: 12
 - RM observation angle:
 - Horizontal direction: 360° (full circle)
 - Vertical direction: $\pm 30^\circ$
 - Program selectable coverage sector angle in horizontal direction (in scanning mode) : 45°, 90°, 180°, 360°
