

## Rosoboronexport to present full range of modern Russian defense products at DEFEA 2021 in Athens

Rosoboronexport JSC (part of the Rostec State Corporation) will organize a single Russian exhibit at DEFEA 2021, International Defense Exhibition in Athens, Greece. The exhibition will be held from July 13 to 15, 2021 for the first time in 12 years at Metropolitan Expo, located on the territory of Athens International Airport Elefterios Venizelos.

"Rosoboronexport notes with great satisfaction the systematic and effective work with Greek partners, despite severe restrictions related to unfair competition on the part of most European countries. Today, the company fulfills its obligations under previously concluded contracts. After-sales service of the delivered Russian naval equipment, as well as air defense systems, does not cause complaints from the partner. Rosoboronexport looks forward to increased military-technical cooperation both with Greece and other friendly European states participating in the exhibition," said Alexander Mikheev, Director General of Rosoboronexport.

Rosoboronexport will showcase products of Russian defense enterprises at stand F19 in Pavilion 3. During the exhibition, the company will hold a number of presentations of weapons and military equipment for foreign customers.

Representatives of the Greek Army and delegations of other countries will be interested in new models of small arms – Kalashnikov [AK-200](#) series and [AK-15](#) assault rifles, Kalashnikov [Pecheneg](#) machine gun and 12.7 mm [6P50](#) machine gun. In addition, scaled models of the [T-90S](#) MBT and the [BT-3F](#) armored personnel carrier will be on display at Rosoboronexport stand.

The company expects that European partners will pay increased attention to the [Msta-S](#) self-propelled howitzer upgraded to NATO's 155 mm caliber, Khrizantema-S and Kornet-EM anti-tank systems, Tornado-S 300 mm multiple rocket launcher, as well as to the A-220M 57 mm remote controlled weapon station.

At Rosoboronexport stand, Argus-NV will exhibit its Phobos, Atlas, Deimos and Titan thermal imaging sights which Rosoboronexport promotes worldwide under the brand name INFRATECH.

The [Yak-130](#) combat training aircraft displayed here as a scaled model, [Su-35](#) multirole super-maneuverable fighter, [MiG-35D](#) two-seat multifunctional front-line fighter and the [IL-76MD-90A\(E\)](#) military transport aircraft are considered to be the most advanced equipment models for the air force in the region's market.

The company's delegation is ready to provide comprehensive information on the Orion-E unmanned aerial vehicle, which Rosoboronexport has started promoting worldwide in a reconnaissance/strike version. Special Technology Center presents a model of its Orlan-10E unmanned aerial vehicle at Rosoboronexport stand.

At DEFEA 2021, Rosoboronexport will exhibit a wide range of Russian military helicopters. Visitors to the stand will be able to get acquainted with a model of the [Mi-28NE](#) attack helicopter, as well as get detailed information on the [Ka-226T](#) multi-purpose helicopter, [Ka-52](#) scout/attack helicopter, [Mi-35M](#) transport/attack helicopter, [Mi-17V-5](#), [Mi-171Sh](#) military transport helicopters and the Ka-31 radar picket helicopter.

The [Gepard-3.9](#)-class frigate, [Project 20382 Tiger](#)-class corvette, [BK-16E](#) high-speed transport/landing boat and [BK-10](#), [BK-10M](#) and [BK-9](#) high-speed assault boats may be of interest to delegations of the naval forces. Rosoboronexport will also present [Project 636](#) and [Amur-1650](#) diesel-electric submarines, as well as P-750, Piranha and Piranha-T small submarines. For coastal defense, the company will showcase the Rubezh-ME and [Bastion](#) modern coastal defense missile systems with the [Yakhont](#) anti-ship cruise missile at DEFEA 2021.

Rosoboronexport will display a wide range of advanced air defense and electronic warfare systems in Athens. In particular, the [Viking](#) medium-range SAM system, [S-400 Triumf](#) long-range air defense missile system, [Verba](#) MANPADS, as well as the [Tor-E2](#) SAM system and the [Pantsir-S1](#) anti-aircraft gun/missile system, which have proved effective in countering UAVs, have prospects in the region's arms market.

In addition, Rosoboronexport will offer counter-drone electronic warfare systems that have been successfully tested under combat conditions such as the [Repellent](#) system and its super-mobile version, Repellent-Patrol, mounted on light army SUVs.

During the business program of the exhibition, the delegation participants will meet with Rosoboronexport partners from the law enforcement agencies of Greece and other European countries participating in DEFEA 2021.
