

## Rosoboronexport to showcase latest security equipment and solutions at Interpolitex 2021

JSC Rosoboronexport (part of the Rostec State Corporation) is taking part in the 25-th International Exhibition of Means of State Security Provision "INTERPOLITEX-2021" to be held on 19-22 October 2021 at the Crocus Expo International Exhibition Center.

At Interpolitex-2021, Rosoboronexport will make efforts to promote civilian and dual-use products, special equipment for law enforcement and security agencies, developed and manufactured by leading Russian companies.

"At the invitation of Rosoboronexport, over 130 guests from 30 countries will visit the exhibition in 2021. These are representatives of law enforcement agencies, emergency response agencies, private security and IT companies, as well as regional authorities," said Alexander Mikheev Director General of Rosoboronexport and Deputy Chairman of the Russian Engineering Union. "We, together with industrial enterprises, will show our partners the full range of professional security equipment exhibited at Interpolitex and familiarize them with Rosoboronexport's integrated solutions to counter the main challenges and threats confronting modern society."

At Interpolitex-2021, Rosoboronexport will showcase modern personal protective equipment manufactured by NPP Klass, NR-2000 nonlinear junction detector and Larets-4 cell phone anti-eavesdrop safe-box from the YUTTA Group, non-lethal self-defense and defense systems from the Research Institute of Applied Chemistry, a Federal Research and Production Center, stun guns from the MART GROUP, thermal and optical sights produced by Argus-NV and Dedal-NV, and screening systems and devices offered by JSC Set-1.

In addition, Lobaev Arms and ORSIS small arms and hunting weapons, as well as anti-UAV systems produced by the Avtomatika Concern (part of the Rostec State Corporation) will be on display at the company's stand.

Representatives of security agencies will be most interested in a line of electroshock weapons offered by Rosoboronexport, which have proved effective in practice. The Cerberus precision and easy-to-use metal detector with a built-in stun gun is ideal for use at various checkpoints, airports or secure facilities where it is necessary to screen persons.

To provide VIP security, specialized law enforcement units need special precision weapons. Thanks to its modular design, Lobaev Arms DVL-10V3 Volkodav (Wolfhound) compact, light and accurate sniper rifle is suitable for various tasks. The user can change the barrel using ammunition of different calibers, including in the field. The Volkodav accurately hits a target at a range of up to 1000 m, allowing the shooter to maintain a high level of mobility.

The modern Taktika versatile bulletproof vest is designed to perform a wide range of tasks. Its unique feature is the opportunity to adapt to any conditions encountered by law

enforcement agencies. A set of removable ballistic inserts and an ergonomic design provide reliable protection and a wide variability of optional equipment, whereby the vest can be easily adapted to specific needs. The officer chooses the level of necessary protection, which is provided by removable ballistic inserts. The basic bulletproof vest with installed front, back and side armor panels can be fitted with Level II to V removable ballistic inserts

Rosoboronexport will introduce these products in detail during public presentations at the company's stand: "Personal Armor", "Equipment for Law Enforcement Agencies" and "Anti-UAV Weapons". In the conference hall of the exhibition, the company will give the "Comprehensive Presentation of Russian Security Equipment".

In parallel with its offline activities at the exhibition, Rosoboronexport will promote its products online. Presentation broadcasts and product reviews will be available on the company's website and social media accounts.

During the exhibition, Rosoboronexport is scheduled to hold meetings and negotiations with partners invited to Interpolitex.
