

## Rosoboronexport to organize Russia's single exhibit at ArmHighTech 2022

Rosoboronexport JSC (part of the Rostec State Corporation) will organize Russia's single exhibit at the III International Exhibition of Armament and Defense Technologies (ArmHighTech2022) that will be held from March 31 to April 2 at the Karen Demirchyan Sports and Concert Complex in Yerevan, Armenia.

The company will conduct a large-scale demonstration of high-tech, innovative advanced weapons, military equipment and technologies, as well as ready-made solutions for meeting the needs of the armed forces and law enforcement agencies of the Republic of Armenia and CIS countries.

At ArmHighTech 2022, Russia's single exhibit includes a total of about 300 products in the form of pieces of equipment, scale models, mock-ups, videos, posters, brochures, booklets and other advertising materials.

Scale models of air materiel, ground force weapons, air defense assets, small arms and various MRAP vehicles will be on display at Rosoboronexport's stand. The company will also showcase electronic warfare assets for countering small-sized UAVs.

Among new products from the Russian defense industry to be exhibited for the first time at ArmHighTech 2022 are modernized attack and military transport helicopters, T-90MS MBT, UBIM multi-purpose armored engineer vehicle, combat vehicles based on the Boomerang standardized wheeled platform, as well as Kalashnikov AK-15 and AK-203 assault rifles.

In Yerevan, Rosoboronexport will also present extensive capabilities of the Russian defense industry for modernizing previously delivered products, including within the framework of joint activities.
