

Rosoboronexport to showcase current Russian products for Caspian countries at ADEX 2022

Rosoboronexport JSC (part of Rostec State Corporation) is the organizer of Russia's joint exhibit at the ADEX 2022 Azerbaijan International Defense Industry Exhibition, which will be held on September 6-8 at the Baku Expo Center, Azerbaijan.

"Rosoboronexport is a traditional exhibitor at ADEX. In Baku, we are showing military products from leading Russian manufacturers for the countries of the Caspian region, with which we have long-term good-neighborly relations. In 2022, we will demonstrate about 500 pieces of equipment for all services and branches of the armed forces, special and police units, as well as a wide range of civilian products," said Alexander Mikheev, Director General of Rosoboronexport. "We expect a lot of attention to small arms, counter-terrorism systems and cybersecurity projects promoted by Rosoboronexport."

At ADEX, Rosoboronexport will showcase state-of-the-art military products: the Il-76MD-90A(E) military transport aircraft, Su-35 multi-role supermaneuverable fighter, Ka-52(E) scout/attack helicopter, Mi-35M transport/attack helicopter, Terminator BMPT tank support fighting vehicle, upgraded Msta-S self-propelled howitzer with a standard 155 mm NATO gun, Buk-M2E SAM system and the Khризantema-S self-propelled ATGM system.

Rosoboronexport's exhibit will include the Tigr special wheeled armored vehicle, a MRAP wheeled armored vehicle, as well border and critical asset surveillance equipment, including autonomous mobile posts and technical and video TV surveillance systems.

In total, more than 20 defense companies take part in the Russian exhibit at ADEX 2022, six of which will show their developments at their own stands.

"The exhibit and the level of the Russian delegation at ADEX 2022 will allow Rosoboronexport to discuss with partners any current and future projects relevant to the region, as well as formats of interaction in a new global market environment. We will talk about our proposals within the framework of industrial partnership, opportunities for joint development and production of weapons and military equipment, modernization of previously delivered products, personnel training," Alexander Mikheev said.
