

Rosoboronexport to present Russian defense products at Partner 2023 exhibition in Belgrade

Rosoboronexport JSC (part of Rostec State Corporation) is taking part in the Partner International Defense Exhibition 2023, which will be held from September 25 to 28, 2023 in Belgrade, Republic of Serbia.

"Rosoboronexport highly appreciates the warm relations between Russia and Serbia, which have historically been culturally close states. The cooperation of our fraternal peoples is strategic in nature, proven by time and a variety of external factors. Today Serbia consistently pursues a state policy to protect its own interests in Europe and the world. Russia has always contributed to Serbia's aspirations to strengthen the country's sovereignty and independence," said Alexander Mikheev, Director General of Rosoboronexport.

For needs of the ground forces, Rosoboronexport will present Russian-made weapons that are most in demand in the market, including the T-90S and T-90MS MBTs, TOS-1A heavy flamethrower system, 9K515 (Tornado-S) multiple rocket launcher system, the upgraded Msta-S self-propelled howitzer featuring the 155mm caliber, BMPT tank support fighting vehicle, as well as Kornet-E and Kornet-EM ATGM systems. The company will offer diverse engineer equipment – obstacle-clearing vehicles, mine-clearing vehicles, bridge-laying vehicles and mechanized bridge systems.

Great interest is expected in Russian small arms. Rosoboronexport will showcase the latest products from Kalashnikov Group and High Precision Systems, both are subsidiaries of Rostec: Kalashnikov AK-308 and AK-19 assault rifles, Kalashnikov PPK-20 submachine gun, 6P68 and 6P67 Kord balanced-action assault rifles.

Rosoboronexport will present Su-35, Su-30SME and MiG-35 fighters, Yak-130 combat trainer, IL-76MD-90A(E) military transport aircraft and Il-78MK-90A tanker aircraft to Air Force representatives. Considerable interest is expected in the Ka-52E scout/attack helicopter, Mi-17 military transport and the Mi-35M transport/attack helicopters. The company will exhibit a wide range of air weapons.

Given the high interest of the world market in unmanned aerial vehicles, the Orion-E reconnaissance/strike unmanned aircraft system, Orlan-10E and Orlan-30 reconnaissance UAVs will on display at the company's booth.

To build a layered air defense system, Rosoboronexport will offer anti-aircraft missile systems of various ranges, including Viking, Buk-M2E, Tor-M2KM, Pantsir-S1M SPAAGM system, and Verba and Iгла-S MANPADS. The presented air defense assets can be effectively used not only to defeat a wide class of air targets, but also to counter heavy and medium UAVs.

Rosoboronexport will also demonstrate electronic warfare systems at the exhibition, including those countering PGWs and UAVs.

Naval delegations will be shown high-speed assault boats BK-10 and BK-16E.

During the business program of the exhibition, Rosoboronexport will acquaint its partners with the broad opportunities for cooperation within the framework of industrial partnership, opportunities for joint development and production of weapons and military equipment, including in the interests of third countries.
