

## Argument-2

### LIGHTWEIGHT, RELIABLE, EFFICIENT

The Argument-2 man-portable anti-UAV system does not require special operator training and is ready for use in near real time

The system is designed to create jamming signals for unmanned aerial vehicles in order to prevent their unauthorized access to secured areas and any possibility of terrorist acts.

Find out more about the Argument-2 system t.+7(495) 534 61 83

#### Main characteristics:

- Suppression range, km:
  - navigation channels: 2.1
  - control channels: 1.1
- Jamming frequency ranges:
  - control channels: 870-950 MHz, 2400-2500 MHz, 5150-5350 MHz, 5790-5900 MHz
  - navigation systems: GLONASS, GPS, Galileo, BeiDou
- Duration of continuous operation from battery, hour: at least 1
- Overall dimensions (WxHxD), cm: 21x23x125
- Weight without packaging and tripod, kg : no more than 6
