

"Pantsir-S1"

Perfect protection for any object

Mobile, multi-channel short-range air defence system has high firepower and is able to effectively engage a wide class of air attack weapons.

"Pantsir-S1" ADMGS has combined missile and gun weapons, a short reaction time and the ability of a combat vehicle to conduct reconnaissance and engagement of air targets in motion.

"Pantsir-S1" ADMGS is designed for air defence of small military, administrative, and industrial facilities and areas, including mobile ones, against fixed- and rotary-winged aircraft, cruise missiles, and high-precision weapons as well as for strengthening air defence units against massive air strikes.

Find out more about AAMGS "Pantsir-S1". tel.+7(495) 534 61 83.

[Counter-UAV Systems](#)

Main characteristics:

- Engagement range for the airplane with radar cross-section of 2 sq. m and target speed of 300 m/s:
 - With missiles:
 - range : 1200-20000 m
 - altitude : 15-15000 m
 - With gun weapons:
 - range : 200-4000 m
 - altitude : 0-3000 m
- Quantity of simultaneously engaged targets: 4
- The maximum speed of engaged targets: 1000 m/s
