

MTs-116M

Can be easily adapted to shooter

Based on a high-class sports rifle, MTs-116M allows hitting targets with a single shot with the highest accuracy when conducting police or counter-terrorist operations.

- ▶ standard optical + ramp-type rear (for 100 and 300 m) sights, possibility to fit with various day and night sights;
- ▶ anti-mirage device (on the barrel);
- ▶ slot flash suppressor.

The 7.62mm MTs-116M sniper rifle, based on the MTs-116 sporting rifle and chambered for 7.62x54mm or 7.62x51mm cartridges is designed to destroy unprotected enemy manpower or manpower wearing body armor, and thin-skinned vehicles. Reloading is manual, and the barrel bore is locked by a longitudinally sliding bolt.

The butt-stock is adjustable in height and length, and the cheek piece is adjustable in height. The lower part of the butt-stock accommodates an extending support. A folding bipod is mounted on a rail in the lower part of the shortened forearm. The Picatinny rail is mounted on top of the receiver. As agreed upon with the customer the rifle may be fitted with various day and night sights.
