

KADEX – 2018

International Exhibition of Weapons Systems and Military Equipment KADEX 2018 will be held under the aegis of the Ministry of Defence and Aerospace Industry of the Republic of Kazakhstan on an air base near Astana on May 23-26.

In 2018 it will be the 5th exhibition. Rosoboronexport is participating for the 3rd time in KADEX.

The thematic scope of the exhibition includes aviation equipment, UAVs and space technologies, armaments and materiel of land and naval forces, air defence systems and equipment, logistics and technical support of troops, IT-technologies, communications systems and assets, robotics in the military domain, alternative sources of energy.

In the margins of KADEX 2018 there will be the first ever international forum 'The Days of Space in Kazakhstan'. Special attention during the exhibition will be given to the development of electronic, communications and armaments control systems as well as to the search of contemporary solutions in the area of information security.

In line with the decision of the Federal Service on Military and Technical Cooperation, in 2018 Rosoboronexport is defined as the organizer of the unified Russian exhibit at KADEX. As many as 14 Russian holdings will present their military equipment there.
