

Main characteristics:

- Overall dimensions (L×W×H), mm: max 280x200x115
- Weight, kg: max 3.5
- Detection threshold for TNT, g: 2,0·10⁻⁸
- Sampling unit cleaning time, min: max 2
- Time for operating mode start-up, min: max 15
- Number of measurements per minute: 15-20
- Communication interfaces: Ethernet (TCP/IP), USB, clean contact
