

## SPRUT-3PM

### Rugged and Capable Multi-Sensor Reconnaissance and Surveillance Binocular

Dual-channel SPRUT-3PM incorporates thermal imaging and highly sensitive TV channels. SPRUT-3PM drastically improves efficiency of reconnaissance, search and rescue missions, detection of concealed people or vehicles, objects equipped with optics.

#### Main characteristics:

- Thermal sensor, px: 640x480
- Spectral range,  $\mu\text{m}$ : 8-14
- Minimal detected temperature difference, not more,  $^{\circ}\text{C}$  : 0,05
- Focal length, not more, mm : 60
- Field of view, not less :  $10.4^{\circ} \times 7.8^{\circ}$
- Human detection/recognition range: 1059/353 m
