

## TALISMAN-P

### Safe and Sound Waterfront

Reliable Diver Interdiction System. Non-Lethal Acoustic Underwater Deterrence.

- ▶ Efficient warning to prevent intrusion;
- ▶ Effective deterrence in case of disobedience;
- ▶ 160 dB of acoustic force.

TALISMAN-P is designed to protect critical maritime assets and enhance Homeland security. Hydroacoustic-based security device is an efficient tool to provide underwater diver barrier. TALISMAN-P operates as an underwater loudhailer to send initial warnings. In a threat of an underwater terrorist TALISMAN-P is capable to deliver non-lethal acoustic deterrent to force a diver to the surface.

Main characteristics:

- Warning range, up to, m: 400
- Operating frequencies, Hz: 500-1500
- Hydroacoustic pressure, dB: 160
- Operating angle, up to, °: 180
- Consumed power, KW: 3
