

ROSOBORONEXPORT to showcase latest Russian defence products at Partner 2025 in Belgrade

Press Release
September 22, 2025

JSC ROSOBORONEXPORT (part of Rostec State Corporation), is participating in the Partner 2025 International Defence Exhibition, which will be held from September 23 to 26 in Belgrade, Serbia.

"ROSOBORONEXPORT has become a traditional exhibitor at the Partner exhibition, the largest defence fair in Eastern Europe. We are proud to present the latest products from Russian defence companies in Belgrade, demonstrating our commitment to comprehensively assisting the fraternal people of Serbia in strengthening their national sovereignty and independence," - said Alexander Mikheev, Director General of JSC ROSOBORONEXPORT. - "In 2025 the Company will showcase the latest weapons and military equipment for all services of the armed forces, developed and upgraded taking into account the analysis of modern military conflicts."

Rostec's products will be the main exhibit items at ROSOBORONEXPORT's stand: the IL-76MD-90A(E) military transport aircraft from the United Aircraft Corporation (UAC), the Mi-28NE attack helicopter and the Pantsir-S1M SPAAGM system from High Precision Systems. The Tor-M2KM modular SAM system, developed and manufactured by the Almaz-Antey Air and Space Defence Corporation, will be on display as well.

The exhibited anti-aircraft systems have successfully proven their performance in real combat conditions when countering cruise and ballistic missiles, MRL rockets as well as UAVs of various sizes. Along with the SAM systems offered at the exhibition, including the S-350E Vityaz and Viking medium-range SAM systems, Pantsir-SMD-E short-range SAM system and Verba MANPADS, they can be integrated into a layered national air defence system and protect critical installations, items of infrastructure and personnel deployment areas.

To address the pressing need to counter UAVs and precision-guided weapons, ROSOBORONEXPORT will also showcase electronic countermeasures (ECM) systems

successfully used by Russian law enforcement agencies. Among them are common jamming modules of the Pole-21E electronic warfare system used to protect critical installations against precision guided weapons, the R-330Zh automated satellite communication/navigation jamming system, the RB-504P-E and others.

In the UAV segment ROSOBORONEXPORT will offer its partners a wide range of recon and recon/strike UAVs, as well as the Lancet-E and Kub-2E loitering munitions. All of the products have been successfully tested under real combat conditions, demonstrated excellent performance and become global market leaders.

New Russian-made products presented at the exhibition in the form of various promotional materials will include the upgraded T-90MS MBT, remote-controlled Kornet-EM ATGM system, Berezhek weapon station and the latest models of small arms: the AK-15 assault rifle in several versions, RPL-7 and RPL-20 belt-fed light machine guns, Chukavin sniper rifle, etc.

For the Air Force, the COMPANY will also offer the modernized Yak-130M combat trainer, the Checkmate fifth-generation light tactical aircraft and a wide range of modern air-to-air weapons.

During the exhibition's business program ROSOBORONEXPORT will inform its partners about the extensive opportunities for cooperation with Russian defence industry companies.

"We will discuss cooperation in equipping the security, defence and law enforcement agencies of our country's key strategic partner in the Balkans with Russian-made products, as well as the possibility of providing technology assistance to Serbian companies in developing new pieces of armament," - added Alexander Mikheev.
